### Desert Hills Social Center

Dues: \$2.00 per year

No need for ticket or reservation.

Bring your GVR card and sign in at the door.

**Weekly presentations that are mind-expanding, informative and challenging**

#### May 1

**Understanding the Dynamics of Diversity** Mark Meadows will present on everything that you see that is different from anything else is an aspect of diversity. We will look at how this applies to humankind, to include, the definition of an ethnic group; the types of interactions between majority and minority groups; obstacles to integration. Finally, we will look at four universal values systems and see how they are expressed in diverse cultures.

#### May 8

**49ers On Their Way to California** Dan Judkins will talk about the 49ers coming through this area on their way to California in search of gold.

#### May 15

**The Greatest Dutch Master of All** Charles Tampio will give a visual presentation of three of the greatest artists of all time: Rembrandt, Vermeer, and Van Gogh. Each of these artists has produced some of the most impressive and beloved masterpieces in the history of art. Their very different approach to portraiture, landscape, color, and composition will be compared and contrasted to illuminate their individual genius. In this interactive performance, audience members will be surveyed to determine their favorite and, if they like, to defend their choice.

#### May 22

**A Tribute to Veterans** Gary Kissinger, retired veteran, will give a presentation which will include military recruiting posters, music and video clips from World War I through the Gulf Wars. He will conclude his presentation by showing the results of the work done by the American Battlefields Monument Commission

#### May 29

**Poison Control 101** With Laura Morehouse, in this session, participants will learn the history of the Arizona Poison and Drug Information Center and its role as a vital public health service. Participants will learn the scope and severity of the poisoning problem in the United States and the people most affected.
